VENUS[®]

WELCOME

Welcome to Venus. We are a family run Devon business with second and third generation family members. We provide authentic homemade food across our menus, buying locally and buying top quality. We aim to be the greenest café. Looking after our immediate environment is critical including all wildlife around us. We focus on home compostable to ensure that any items not put in the bins ending up in the sea or on the beach, aren't left to pollute for years to come. Home compostable means that the product will decompose naturally on a home compost heap leaving no residue or toxins. We don't believe that the environmental answer is transporting rubbish hundreds of miles to energy intensive recycling centres. This seems a nonsense and an inappropriate answer to the environmental challenges we face.

We are proud to have been the first in the UK to adopt fully home compostable palm plates, hot cups and lids, cake wrappers, cling film and cleaning materials. Our search for home compostable continues all the time and we will continue to be early adopters of all new plant-based home compostable packaging.
